Fire Enquiry.

At the Magistracy yesterday afternoon, Mr T. Sercoarbo Smith, Police Magistrate, held an enquiry in regard to the recent fire at the Wo On Godowns, Kennedytown. was stated that the cause of the fire was unknown, but that it appeared to have originated among some cotton in the front part of the building on the ground floor. Six of the firms which had goods there were insured to the amount of \$230,000. but several parties had goods there amount. ing to about \$:0,000 which were not insured. The amount of damage to goods and buildings would amount to about \$150,000. The premises were released.

That it scores my representations from an hading of residents have been made i favour of a reasonably-bold miley, as the regolistions have apparently been removed to Peking by the British Foreign Office officials.

That we in Hongkong, who pay the piper will be duly informed as the what his been done after it is immossible to ande it, and we are then fondly expected to smile, and pay, and look pleasant.

That it would not be so excaperating some 'say ' were left to us in the general muddle of administration.

threatened evacuation of Sham-chuen should be accompanied by the natura necessity of furnishing additional taxation from Hongkong residents, is what may be termed the last straw, and it might have been a compar tively easy thing to smooth over the extra taxation by preserving the prestigo.

That the joint lo s. is unendurable ; and every one wonders why (1) we were no permitted to negotiste a loan, and (2) why the British flag is to suffer the dis grace of being hauled down from the Sham-chuen Hagstaff.

That I hear it has been suggested the disgrace-money should be paid over to publicly in the square of Sham-Chuen, but I am afraid the publicity would only accentuate the disgrace of taking a petty sum for the lowering of our flag.

That there is very little pleasure in having to write in this strain about the things - one prizes more than anything else i life : but I shall be under ever lasting obligations to any one who can . auggest any reasonable cure for our present troubles.

PIERS AND WHARVES.

At the Committee Meeting of the Hongkong Chamber of Commerce on the 19th inst., the Secretary read a letter, dated forwarding copy of a Bill entitled 'The Piers Ordinance, 1899, in which a scale of charges is embodied, showing considerable increase on the amounts hitherto charged, but less than those proposed to be enforced last year under a new Order in Council, and against which the Chamber appealed as excessive.

Considerable discussion took place of this measure, and it was eventually decided that the opinions of the whaif owners should be taken and a letter criticising the Bill addressed to the Government.

The following is a copy of a letter ad treased to the Government by the Chamber of Commerce:--Hongkong General Chamber of Commerce

Hongkong, 23rd June, 1899. Sir,-I beg to acknowledge receipt of your letter (No. 905) of the 15th inst. enclosing draft of a Bill entitled 'The Piers Urlinance, 1899, and requesting an expression of opinion thereon from the Chamber. In reply I am instructed by the Committee 2.—The time given for consideration of

so important a Bill, involving large interests, is brief and quite insufficient. 3.—There seems no necessity for such measure. The rents paid hitherto have been fixed by His Excellency the Governor under an Order in Council, and the Committee

respectfully submit that those rents are

sufficient in amount. 4 .- The scale in the Schedule, though ower than the one, proposed last year, still very much in excess of what should be charged when it is considered that the amount is fully six times that of the Crown Rent on the Marine Lots.

5.-If it were conceded that any neces sity existed for this Bill, then Clause 20 aght certainly to receive an addition, something to the following offect :- 'for a period of fifty years from that date, when the scale will be subject by fevision. 6.—The Bill is, however, open to severa

other serving objections, not the least being the breach of faith in certain instances with some of the wharf owners amounting to comething in the nature of comscation. 7 -The Committee wish again to point out to the Government that many of these piers were crected mainly for the conveni-

Were these piers dispensed with and passengers and cargo landed in boats, as is done from the ocean steamers, great inconvenience would result and the duties of the Water Police would be largely added to, while the facilities now existing for the rapid discharge and distribution of the food supplies brought in the river steamers would be much curtailed. . 8.-Under all the circumstances therefore, and having regard to the fact that any burdens laid upon wharf owners must necessarily prove obstructive to the course of trade, a tax upon shipping, and an interference with the freedom of the port, the Committee trust that His Excellency the Governor will be able to see his way to THARLES H. Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Term Sha Tent during the years 1887-8-9. The zero of the table is Low Water Or-

dinary Spring Tides, which has been found to be 2 feet below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. in, and on the gauge at Lamont Dock, Abordeen, add 12 ft. 9 in. to the height given in the table.
